VINYLAFS- BLACK
PVC INDUSTRIAL FLEXIBLE AIR DUCTS

VINYLAFS-BLACK series of PVC non-insulated industrial flexible air ducts are multi-purpose flexible air ducts particularly designed for easy industrial applications and they are also suitable for low and medium pressure heating, cooling, ventilation and air conditioning systems. VINYLAFS-BLACK series of PVC industrial flexible air ducts can be used in the systems required excessive vibration and perpetual activeness. VINYLAFS-BLACK series of PVC industrial flexible air ducts are made of PVC strips reinforced with high tension spiral steel wire. VINYLAFS-BLACK series of PVC industrial flexible air ducts are airtight. VINYLAFS-BLACK series of PVC industrial flexible air ducts are highly elastic, flexible and can be compressed. They can be fitted to circular, oval or rectangular connectors.

TECHNICAL PROPERTIES

	VINYLAFS- BLACK
Construction	PVC
Nominal Thickness	150 micron
Available Diameters	Ø 82 mm- Ø 203 mm
Temperature Range	- 30 °C / + 80 °C
Air Velocity	30 m/s (Max.)
Operating Pressure	3000 Pa (Max.)
Standard Length	6/10 m.
